

# Colocation

## Fact Sheet

## Space to grow, connect & evolve your I.T. infrastructure.

DCI Data Centers is the perfect destination for your colocation needs. We offer racks, cages and data suites in modern and secure, low risk facilities located conveniently close to Adelaide CBD and Airport. Our facilities connect to all major network providers, helping you accelerate your journey to the cloud.

### FAST FACTS

- **High redundancy:** Our data centres are built with multiple layers of redundancy and resiliency, so you can benefit from greater uptime and reliability
- **Simple billing:** Colocation capacity is reserved by kilowatt (kW) and is billed monthly inclusive of power or based on usage
- **Highly flexible:** We offer fully fitted and shell and core solutions to suit your requirements. Choose a self-configured shell, a custom design by DCI, or a standard rack in our shared or private cold-dry containment environments

### HOW TO ORDER

For more information or to place an order, contact your account manager at DCI Data Centers or email us on [enquiries@dcidatacenters.com](mailto:enquiries@dcidatacenters.com).

### ABOUT DCI DATA CENTERS

DCI Data Centers is a data centre owner and operator that is challenging the way facilities are built and operated. It brings together innovative, environmentally-efficient technologies and construction methods to enable the rapid deployment of secure cloud edge and hyperscale compute environments. With a growing fleet of data centres across Australia, New Zealand and Asia, DCI Data Centers' mission is to become the preferred partner in the Asia Pacific region for the delivery of purpose-built, highly secure, and resilient data centre solutions.

### COLOCATION SOLUTIONS

<b>Fully fitted</b>	Colocation rack
	Suite
<b>Shell and core</b>	Data hall
